

## **INTeresting – 12-Oct-2020**

Plenty of news this week, despite the (hopefully temporary) new restrictions meaning we should only orienteer within the local health board's boundaries ... which will give you more time to write an article for the forthcoming newsletter (please send material to katherine AT [tusks.org.uk](mailto:tusks.org.uk))

### **News and Recent Results**

- Congratulations to **Paul Caban** who completed the **Virtual London Marathon** on Sunday October 4<sup>th</sup>. He completed the distance in 3h 28 minutes, with support from a number of Interlopers on the day. Hope to have some photos up on the website very soon.
- Our **first post-lockdown event, at a very wet Mortonhall**, attracted 78 runners. Well done to Lucy Ward (5<sup>th</sup> on orange), Laura Kitchin (5<sup>th</sup> on yellow), and Iain Embrey (1<sup>st</sup> on light green) and Chris Dibben (3<sup>rd</sup>). Thanks to Katherine Ivory for planning and organising, and to all the volunteers who helped on the day.
- **ESOC's Blackford Hill Challenge** took place this weekend. Not a lot of Interloper entries, though it seems the editor managed to run less slowly than everyone else on the green course!
- Having not long retired from the post of Newsletter Editor, **Professor Ackland** has been branching out into national media, and the lofty heights of the Today programme and the Daily Mail. Read all about it [here](#).
- **Junior Training** resumes on Saturday 24<sup>th</sup> October at Yellowcraig – please sign up at <https://forms.gle/cXapM6wmXjSSts639>
- Angus Ivory has been developing a results site that allows you to search for recent results from your club or age class. Try it out at <http://ozone.pythonanywhere.com/results>. Warning – it may take a while to return results, but it will do eventually. If you select 'club' then 'usual' in the search box, it will return results for Interlopers members over the past week so you can find out how everyone did at the Mortonhall event very easily ...
