

Start list for Polkemmet Local Event as at 08:30 11/06/21

Note start times are indicative to prevent queues from forming: if there's no-one waiting to start, then it's acceptable to start earlier (or later). Those with 'open' start times have priority; ie they may jump to the head of any (socially-distanced) queue.

The "orange" start will close once those with allocated times have started.

Our decision to postpone the pre-entry closing date generated more entries, which is good. Unfortunately, we consequently outstripped the number of maps printed on waterproof paper, so the last entrants will have a map printed on standard paper, protected by a poly-pocket.
